Geoserver

Spring Boot

## Certifications

AWS Certified Developer -  
Associate  
December 2022

ISIPM Base - Istituto Italiano di  
Project Management  
April 22

Google Professional Data  
Engineering  
March 2020

## Education

Bachelor's Degree in Information  
Engineering  
Università studi Padova  
2015

Electronics and Telecommunications  
Technical Expert  
ITIS C.Zuccante  
2009

Michele Scarpa

## Software Engineer

I'm a software engineer with nearly 10 years of experience in web, mobile, GIS, and Digital Signage applications. I specialize in fullstack development, focusing on context, domain, and technologies to ensure quality and continuous improvement.

## Experiences

Fullstack Developer, Almaviva Digitaltec 2022 - current

Skills developed

React	Angular	Java	Spring Boot	NodeJS	PostgreSQL
Postgis	Docker	Leaflet	Geoserver	Keycloak	
Meteor	Kubernetes	AWS	Geonode	Kamunda	WSO2

Key activities and projects

- Fullstack management of enterprise projects, taking care of frontend, backend and database.
- Responsible for the delivery of two projects in production for the Public Administration.
- Mentoring of junior colleagues, supporting them in the path of technical and professional growth.
- Shadowing a post-bootcamp junior developer, contributing to his training until he joined another large company as a frontend and mobile developer.
- Achievement of the AWS Developer Associate certification, strengthening skills in cloud and scalable architectures.

Front End Developer, Viasat - Greenext 2021 - 2022

Skills developed

React	Angular	NX - Monorepo	Kendo UI	Syncfusion
.Net / C#	GraphQL			

Key activities and projects

- Development and maintenance of frontend applications in Angular and React for the management of fleets and waste collection services.
- Integration with .NET/C# backends via GraphQL, streamlining communication between frontend and database.
- Use NX to manage monorepo and scale Angular/React applications.
- Implementing advanced components with KendoUI and Syncfusion, improving UX and complex data management.
- Achievement of the ISIPM Base certification in Project Management, improving the understanding of the project phases and collaboration with PMs.

Junior Software Engineer, Red-V - Ennova 2015 -  
Research 2021

Skills developed

Java	Kotlin	JSP	SQL	JavaScript	Typescript	Tizen
------	--------	-----	-----	------------	------------	-------

### *Key activities and projects*

- Web and Android Player for Digital Signage: Development of a web and mobile platform optimized for centralized management and distribution of digital content on signage devices, with particular focus on performance and scalability.
- Map Tracking System for Public Transport: Implementation of a web and mobile system for real-time tracking of public transport vehicles, integrated with interactive maps and advanced geolocation features to enhance user experience.
- Advanced Digital Signage Feature – LED Wall: Design and development of a reliable system for synchronized and simultaneous multimedia content distribution on large-scale LED screens for public events.
- Mobile Development (Android – Kotlin, Java): Creation and maintenance of native Android applications with particular attention to UX/UI, high performance, and integration with backend services ensuring security and quality.
- Frontend Development (Vue.js, GIS, OpenLayers): Development of advanced frontend interfaces using Vue.js, integrated with GIS solutions through OpenLayers, for web applications managing spatial data and interactive geographic data visualization.

### *Work & study, IN's mercato 2012 - 2014*

### *Skills developed*

Management and organizational skills   problem solving and teamwork

### *Key activities and projects*

- Customer services and Cash management
- Warehouse and inventory management
- Organization of work and collaborators
